Approved science-based target

The Science Based Targets initiative has validated that the corporate greenhouse gas emissions reduction target(s) submitted by

Coor Service Management

have been deemed to be in conformance with the SBTi Criteria and Recommendations (version 4.2). The SBTi's Target Validation Team has classified your company's scope 1 and 2 target ambition and has determined that it is in line with a 1.5°C trajectory.

The official target wording is:

Coor Service Management commits to reduce absolute scope 1 and 2 GHG emissions 75% by 2030 from a 2018 base year. Coor Service Management also commits that 75% of its suppliers by emissions covering purchased goods and services and upstream transportation and distribution will have science-based targets by 2026.*

**The target boundary includes biogenic emissions from bioenergy feedstocks.*
